AMERICAN SHIP TOWED TO PORT

Almost a Thousand Passengers Are Taken From the Steamer and Safely Land on Shore.

Queenstown, Eng., May 29.—Several powerful tugs towed the American line steamship Havelford into harbor this morning. They released her from her dangerous position in Rocky bay, immediately west of Cork head, at high tide at 1 o'clock. She had been lying on the rocks since early yesterday afternoon, when with 134 cabin and 850 steerage passengers, she went ashore in a fog.

When she was brought into port today she had 21 feet of water in her forehold and a considerable quantity in number 2 hold.

The rescued passengers, nearly a thousand in number, gathered today at various points of vantage along the shore in order to get a close view of the damaged steamer.
